

# DELIVER BLOOD TESTS AT YOUR PHARMACY WITH CONFIDENCE

Upskill your team with our CPD-accredited training programme, offering a Level 3 award in phlebotomy

- ✓ **Written and peer reviewed by clinicians**
- ✓ **Delivered in-person**
- ✓ **No prior experience required**

**Become a certified phlebotomist and offer blood draws from your store, with Tuli's certified phlebotomy course.**

No prior experience is required for this course. It's ideal for beginners but is also great for those wanting to brush up on their phlebotomy knowledge and improve their technical skills.

## Learn the essentials

Get to grips with the fundamental competencies required for phlebotomy, including knowledge of anatomy, choosing a site, techniques, managing hazards, and more

## Practice in-person

Receive training on the correct phlebotomy technique using simulation dummy arms, and with obtained consent, on fellow candidates

## Written and taught by experts

Learn from the best. Our course is written, peer-reviewed, and taught by trained clinicians and phlebotomists

## Certified to practice

- ✓ Successful candidates will be awarded a certificate of competence by the **CPD Accreditation Group**, that allows you to perform upper-limb phlebotomies on adults aged over 18.
- ✓ Once you've done the course, you'll also receive **CPD points** that can be used towards your continuing professional development.

# Course Outline

Part

**01**

## Theoretical knowledge

- Anatomy & physiology of the venous system and skin
- Requirements and responsibilities of a phlebotomist
- Choosing a site for venepuncture
- Hazards and complications
